

# Blackberry Configuration Steps For

**Blackberry Bold**

**Blackberry Curve**

This documentation provides you the steps involved in setting up your Black berry mobile to receive mails sent to your University email account.

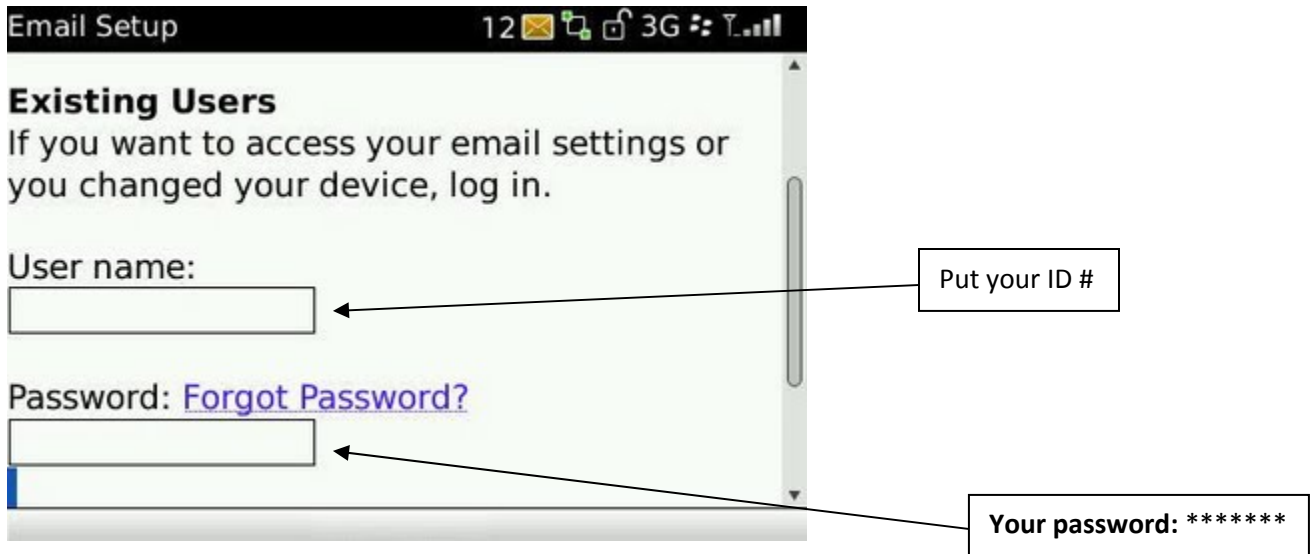

Please follow the steps in the same sequence as given below:

- 1- Open mobile menu, then select (Setup) **Tab**
- 2- Now, select the icon **'E-mail Setup'**
- 3- A new page will appear for setting up e-mails account. Select (Add my Existing E-mail account) icon then press **'setting'**
- 4- In the new Tab you will have to enter the following details:
  - **E-mail Address: first name.Lastname@acm.edu.kw** (your existing email id)
  - **Your password: \*\*\*\*\*** (your existing password)
- 5- Then Press 'Next'
- 6- The service will give display a message **" unable to complete your configuration"**
- 7- Select the tab with **"I will provide the settings to add this email account"**
- 8- Then Press 'Next'
- 9- You will be asked to key in your Username and Password
  - User Name: **your existing STUDENT ID**
  - Password: **your University email password**
- 10- Press 'Next'
- 11- Select the option **'Internet Service Provider (POP3/IMAP)** and then press 'Next'
- 12- Select the option **'I will Provide the settings to add this E-mail Account'**, then press 'Next'
- 13- You will be prompted to key in the following:
  - E-mail address: **firstname.lastname@acm.edu.kw** (your university email id)
  - Username: **your existing STUDENT ID**
  - Password: **\*\*\*\*\*** (your existing password)
  - Email Server: **Webmail.acm.edu.kw**
  - Display/Inbox Name: **put your first name only**
- 14- Press **Next**, a message will appear telling you configuration is successful

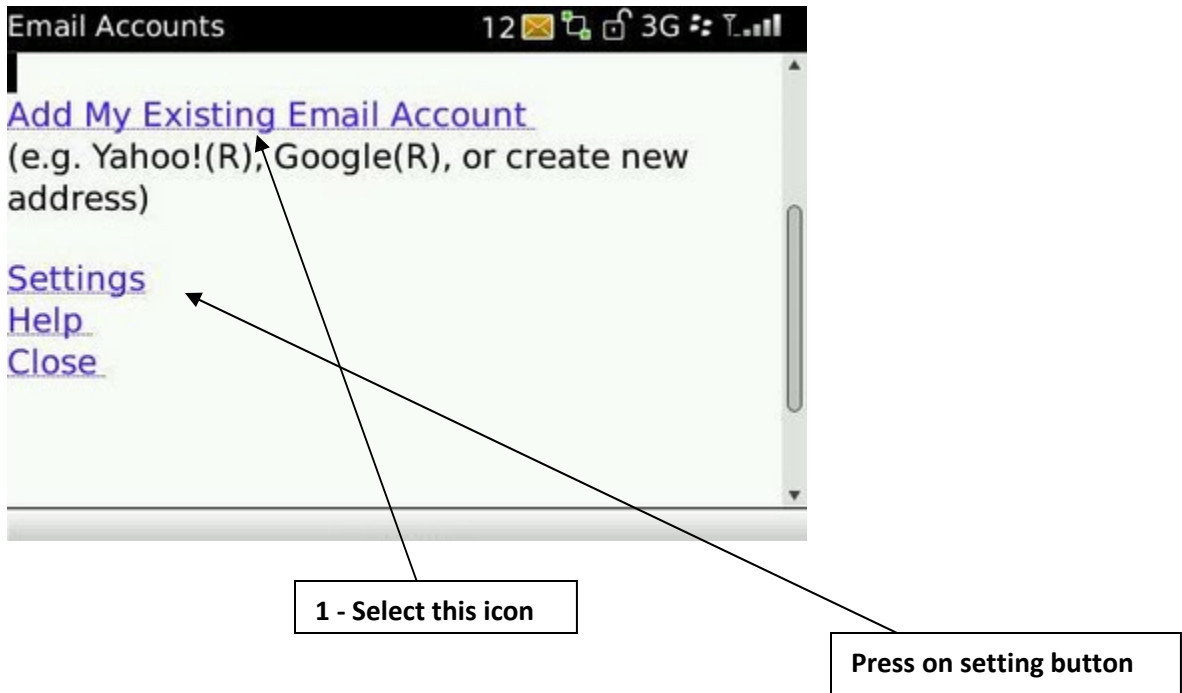

**Now you are able to send & receive e-mails from your teachers and colleagues on your black berry ©.**

This is the steps for configuring E-mail in Images:

1-

2-

3-

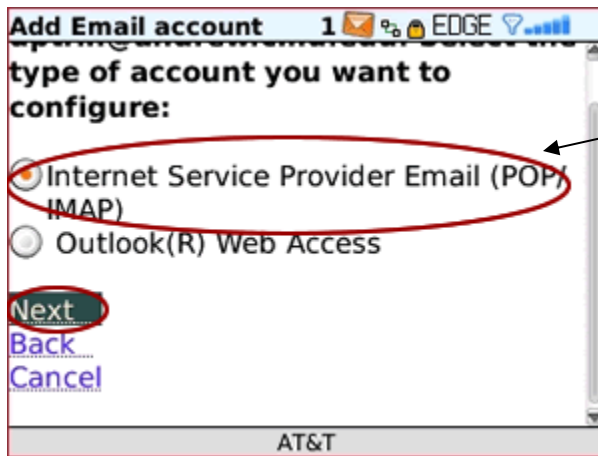

The screenshot shows the 'Email Setup' screen on a BlackBerry device. The status bar at the top displays '12', a mail icon, a lock icon, '3G', and signal strength. The main text reads: 'Add my existing email account to my BlackBerry(R) device.' Below this are two input fields: 'Email address: ?' and 'Email password: ? Show Password'. A 'Next' link is at the bottom left. A tip says 'Tip: To insert @ or . press SPACE'.

firstname.lastname@acm.edu.kw

Your password: \*\*\*\*\*

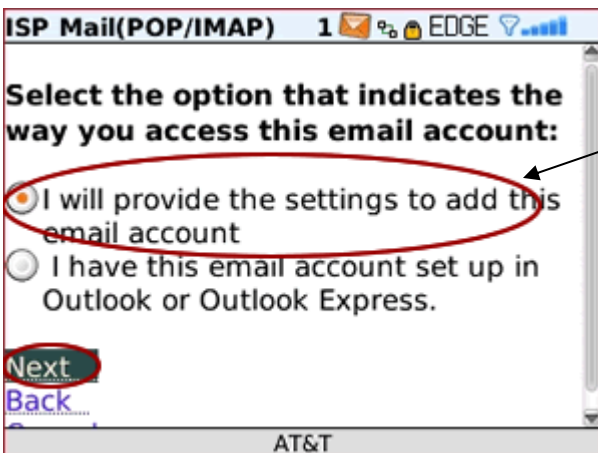

4-

The screenshot shows the 'Add Email account' screen. The title bar says '1' with a mail icon, a lock icon, and 'EDGE'. The main text is 'type of account you want to configure:'. There are two radio button options: 'Internet Service Provider Email (POP/IMAP)' (which is selected and circled in red) and 'Outlook(R) Web Access'. At the bottom, there are three buttons: 'Next' (circled in red), 'Back', and 'Cancel'. The AT&T logo is at the very bottom.

Select the following and press next

5-

The screenshot shows the 'ISP Mail(POP/IMAP)' screen. The title bar says '1' with a mail icon, a lock icon, and 'EDGE'. The main text is 'Select the option that indicates the way you access this email account:'. There are two radio button options: 'I will provide the settings to add this email account' (which is selected and circled in red) and 'I have this email account set up in Outlook or Outlook Express.'.
